Financial Policy for Dayton Interventional Radiology

Effective 1-1-2015, there will be a $25 charge for any appointment that is not cancelled at least 24 hours before the scheduled time. This fee must be paid in full before any other services are rendered. After the third "no show", the practice will discharge the patient from the practice and will no longer provide future services. There is also a fee for any returned check in the amount of $35 and no future checks will be accepted.

It is the policy of this office that all patients pay the patient owed portion or patient responsible amount at the time of service. This includes co-pays, deductibles and known non-covered services, auto accidents and all services for self pay patients. If a patient does not pay the co pay at the time of service, there will be an additional billing fee of $15.00 that must be paid in full before any other services are rendered.

All patients without medical insurance will be eligible for our self pay reduction plan. The reduced amount will be equal to the current Medicare part B fee schedule. All self pay patients are required to pay the entire office visit, at the discounted rate, in full at the time of service. Balances are encouraged to be paid in full within 90 days, with 50% being paid before services are rendered. Failure to follow payment arrangements may cause the practice to discharge the patient for failure to meet financial responsibility, and resort to legal collection activity. No additional services will be performed if there is an unpaid balance or a payment agreement is in default.

For all insured patients, all co pays will be collected at the time of service. No payment arrangement will be made for these amounts.

For all balances as a result of deductibles, or co insurance amounts issued by the patient's medical insurance, payment is expected to be received in full within thirty (30 days) from the statement date. If this is not financially possible, payment arrangements may be arranged with our billing department. Balances are encouraged to be paid in full within 90 days. Failure to follow payment arrangements may cause the practice to discharge the patient for failure to meet financial responsibility, and resort to legal collection activity.

In the event of an overpayment, a refund check will be issued to the patient within 90 days after all insurance processing and appeals are completed. If there are future appointments, the account credit will be applied toward those visits.
